10 WAYS TO REBOOT THE FUTURE 2021-22 **Global Learning Wall Planner**

This wall planner is produced by Reboot the Future for their education platform Global Dimension. Global Dimension supports primary and secondary school teachers with resources to bring global connection, conversation, and compassion to your classroom.

2021 is the year of COP26 - the United Porritt as the 10 big shifts that need to Nations Climate Change Conference, take place in order for us to get a grip which will be held in Glasgow in on the climate emergency. We hope this November - and there is no better time wall planner, and all of our campaign for us to be talking about the future of our resources, will help you to ignite your planet and the role that we can all play students' sense of optimism, tap into in building a more compassionate and their imagination and creativity, and sustainable future. In April we launched our campaign "How Will You Reboot the Future?", prompting conversations in find out more about the campaign and classrooms across the UK on what the to download Jonathon's book as well as world could look like in 5 years' time. To the short films and teaching resources continue to build on these conversations, this year's wall planner focuses on '10 Ways to Reboot the Future', each described by environmentalist Jonathon

8 th	Being able to read and write gives you the power to find out information by yourself. Why is this important? In the 1960s only 42% of the world's population age over 15 were literate, now it is 86%. However, many children living in poverty, particularly girls, do not have the chance to become literate. How do you think this impacts their opportunities to escape poverty?

	THURSDAY International Day for the Preservation of the Ozone Layer
16 th	The hole in the ozone layer is now shrinking due to an international ban on the chemicals that were causing the hole: CFCs. This is a great example of effective climate crisis action, as without this ban the Earth would be at least 25% hotter. What other international agreements do you think we need to stop the climate crisis?

Social Justice How can you use your voice to help others to be heard? FRIDAY 1st **International Day of Older Persons** SATURDAY International Day of Non-Violence (on the birthday of Mahatma Gandhi) Mahatma Gandhi used non-violent activism to help end British colonialism in India. Non-violence is common in social justice activism as it is a way to model the peace and equality that social justice aims for. Why might it be difficult to create lasting change by using violent activism? Can you find any current activist movements that use non-violent protest techniques? SUNDAY World Animal Day MONDAY World Animal Day. Also World Habitat Day Animals can be categorised into 6 main types: amphibians, birds, fish, invertebrates, mammals, $\mathbf{4}^{\text{th}}$ and reptiles. You may not see each of these types of animals every day but they are all important parts of the habitats we live in and the food chains we are part of. Can you find some examples of food chains in the ecosystem you live in? How are humans affecting the animals in your ecosystem? Together, using just 1% of their money, billionaires could give every child an education, every mother and child health care, and everyone safe water, good sanitation and access to energy. Why might someone choose not to do this? Taxes are used to help share out money among a community, do you think this is fair? What do you think would happen if it was made illegal to have more than a million pounds? 	SATURDAY New Years Day	
1 st	Different cultures celebrate New Year on different days, or not at all. Many East Asian cultures base New Year on a lunar calendar, and Islamic New Year and Jewish New Year are in Autumn. Learning about other cultures can help us avoid making assumptions about others. Euro-American culture has become dominant in many parts of the world. How would it feel to never see your culture represented in books or on TV?

There are many ways to address global issues; some are direct, such as activism, and some are indirect, such as writing poetry that changes people's understanding of an issue. Robert Burns' poems contain many political messages - can you find any poetry exploring global issues? What impacts might these poems have?

27 th	Genocide is mass murder aimed at stopping a specific group of people existing. The Holocaust was a genocide of Jewish people, Roma Gypsies, gay people and disabled people by the Nazis during WWII. Genocides often present the victims as evil, dangerous and non-human.
